

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Black Duck, Minn.—"About a year ago I wrote you that I was sick and could not do any of my housework. My sickness was called Retroflexion. When I would sit down I felt as if I could not get up. I took Lydia E. Pinkham's Vegetable Compound and did just as you told me and now I am perfectly cured, and have a big baby boy."

Mrs. ANNA ANDERSON, Box 19, Black Duck, Minn.

Consider This Advice.
No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

DROVE HUSBAND FROM HOME

Act of Militant Suffragette That Was Too Arbitrary to Be Upheld by the Court.

The results that may ensue from being married to a suffragette were revealed the other day in a London (Eng.) suburban police court. Mrs. Tunnicliffe took up the cause and was not able to spend much time at home. When the husband remonstrated she simply commanded her daughter to pack her father's gripsack and there and then ordered him out of the house.

He went and then the lady sued him for desertion and demanded alimony. "But surely you did not take it so feebly?" asked the magistrate of the husband.

"It was no use objecting," was the answer. "She wanted to be master and said that if I annoyed her she would sock me up. I was only too anxious to go back home, but she would not let me."

The case was dismissed.

One Type of Religion.

"Too many people," said Rev. Charles F. Ake, at a luncheon in New York, "regard their religion as did the little boy in the jam closet."

"His mother pounced on him suddenly. He stood on tiptoe, lading jam with both hands from the jam pot to his mouth."

"Oh, Jacky!" his mother cried. "And last night you prayed to be made a saint!"

"His face, an expressionless mask of jam, turned towards her."

"Yes, but not till after I'm dead," he explained."

FEAR INVASION OF ORIENTALS

Unrest Growing Out of Possibility of Hindu Invasion of the Pacific Coast Leads to Strong Protests.

San Francisco.—Following a meeting which was a strong protest against the policy of the government in admitting aliens to this country, the executive committee of the Asiatic Exclusion league was instructed on Sunday to make formal complaint against Commissioner of Immigration Hart H. North of the port of San Francisco, charging him with violating the law in giving entry to this country of diseased Orientals. The recent influx of large numbers of Hindus was laid at the door of the officials as being detrimental to the interests of labor in the United States and particularly in the Pacific coast section.

Secretary Nagle will be asked to make a thorough investigation of conditions here relative to the charges brought against North and the dismissal of the official will be asked should the accusations be substantiated by the facts produced at the inquiry.

Numerous papers, documents, affidavits and a large amount of data were forwarded to Secretary Nagle by the Exclusion league.

Unrest growing out of the possibilities of a Hindu invasion of the Pacific coast was increased on Saturday when one of the Sikhs, who brought his wife with him on the liner Mongolia, announced that other Hindu laborers were planning to bring their wives to America and that many already were on the way.

Warlike Conditions in Ecuador.

Guayaquile, Ecuador.—The British steamer Ecuador with mails from Panama, which was due here May 11, arrived May 15. She had on board government troops from Esmeraldas bound for Machala. President Alfaro, who has spent the last two days in reviewing troops near the frontier, returned Sunday. He says he found the forces in excellent spirits. Colonel Monez Venasa, commander of the southern division of the army, has advanced to Jiron. The army of Machada has been divided into three divisions, commanded respectively by Generals Flavie Alfaro, Franco and Moncayo.

Socialists Prepare for Campaign.

Chicago.—One hundred and fifty delegates to the National Socialist congress met here on Sunday to prepare for the coming state and congressional campaigns. Encouraged by the election of a Socialist mayor in Milwaukee the party workers are laying their plans for the election of at least one or two congressmen in Wisconsin and southeastern Kansas. There was but one contested delegation, that from California, and this dispute was adjusted.

Another Record Broken.

Mourmelon, France.—Daniel Kinet, the Belgian aviator, on Sunday broke the world's record for an aeroplane flight with a passenger, remaining in the air for two hours and fifty-one minutes. At Chalons-sur-Marne, April 8, Kinet made a flight, with a passenger, of two hours and twenty minutes. Previous to that Orville Wright held the record, having remained in the air at Berlin last September, with a passenger, for one hour and thirty minutes.

Figured in Labor War.

St. Louis.—J. W. Van Cleave, former president of the National Manufacturers' association, died of heart disease at his home here Sunday. He was nearly 61 years old. Mr. Van Cleave attracted international attention and became a power to contend with in both the large political parties by reason of his uncompromising attitude toward the big-labor leaders.

Florence Hay Acquitted.

Elko, Nevada.—On the ground of temporary insanity, Florence O. Hay, 18 years old, was acquitted on Friday, of the murder of Joseph D. Carroll, her paramour. Carroll, who was the Nevada agent of the Becker Brewing company at Elko, was shot last November by the girl. Carroll had been living with the girl and had promised to marry her. The testimony, also went to show that he had about \$3,000 of her money, and had told the girl he was going to quit her, and refused to return any of the money.

Iowa Miners Resume Work.

Des Moines, Ia.—The new wage contract governing Iowa coal miners and operators was ratified Saturday by the joint conference, and the 16,000 miners who have been on a strike for the past six weeks resumed work Monday. The contract provides for safer mines, a betterment in social conditions and the desired increase in wages. The operators are pleased because of the disciplinary provision which enables them to enforce the contract and which practically precludes the possibility of a strike.

BABY WASTED TO SKELETON

"My little son, when about a year and a half old, began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come out on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad that I had to tie his hands in clothes at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk."

"My aunt advised me to try Cuticura Soap and Cuticura Ointment. I sent to a drug store and got a cake of Cuticura Soap and a box of the Ointment and followed directions. At the end of two months the sores were all well. He has never had any sores of any kind since. I can sincerely say that only for Cuticura my child would have died. I used only one cake of Cuticura Soap and about three boxes of Ointment."

"I am a nurse and my profession brings me into many different families and it is always a pleasure for me to tell my story and recommend Cuticura Remedies. Mrs. Egbert Sheldon, Litchfield, Conn., Oct. 23, 1909."

Importation of Leeches.

Leeches are enumerated by the bureau of statistics under its general head of animals imported, the total value of the imports of this species in 1908 having been \$5,341; in 1907, \$6,922; in 1906, \$4,494; in 1905, \$3,862; in 1904, \$3,589; in 1903, \$3,240, and in 1902, \$2,412—the commerce in leeches being thus of a growing character. The total value of the leeches imported into the United States in the decade ending with 1908, is about \$40,300. Leeches are imported free of duty. Snails were at one time enumerated as an article of importation, the records from 1894 to 1898 showing snails imported to the extent of about \$5,000; but the small trade so dwindled, showing only \$24 of imports in 1898, that the bureau discontinued its statements of this article.

An Interruption.

Among the primary pupils enrolled in a Baltimore school this term is the son of a prominent business man of that city.

One afternoon, at close of school, the youngster sought out his father in his office, to him he said:

"Dad, I'm getting tired of school. I think I'll quit."

"Why?" asked the astonished parent; "what's the matter, Tommy? I thought you were fond of going to school."

"So I am, dad," responded the youngster, suppressing a yawn, "but it breaks up the day so."—Harper's Magazine.

HELP FOR THE AGED.

No Need to Longer Suffer from Kidney Trouble.

Mrs. Catherine Sullivan, 1712 Moffatt St., Joplin, Mo., says: "Like most elderly people, I suffered from kidney trouble for years. My back ached intensely and there was a feeling of numbness in my spine. My hands cramped and the urinary passages were profuse. Doctors prescribed for me but I was not benefited. At last I began taking Doan's Kidney Pills. They drove my troubles away, and I now enjoy excellent health."

Benefit in Outdoor Schools.

Speaking before the National Association for the Study and Prevention of Tuberculosis recently, Dr. Henry Farnum Stoll of Hartford, Conn., said:

"Every city should have one or more such institutions for all delicate, so-called scrofulous or anaemic children, and those with tuberculosis of the bones, who are now in ordinary schools. Doctor Stoll declared that twenty to forty per cent. of school children in large cities are infected with tuberculosis. By the use of tuberculin, it was ascertained that 79 per cent. of the children from tuberculous homes were infected as against only 26 per cent. of those from supposedly healthy homes. It was also found that 50 per cent. of the frail children from healthy homes had the germs of the disease, but that only 13 per cent. of the robust children from similar homes were thus affected."
